SUMMARY

Software Development graduate with Honours from SAIT, specializing in full-stack web and mobile application development using React, React Native, and Node.js. Led frontend development of a 45+ screen mobile capstone application and contributed to multiple team-based projects involving API integration, UI development, and Agile workflows. Strong foundation in scalable software design, problem-solving, and collaborative development environments. Seeking an entry-level software developer role.

EDUCATION

Southern Alberta Institute of Technology (SAIT)

Software Development Diploma

Calgary, AB

Apr 2026

- Graduated with Honours, GPA: 3.97/4.0

TECHNICAL SKILLS

Languages & Databases: JavaScript, TypeScript, Python, Java, C#, HTML/CSS, SQL, MySQL, PostgreSQL

Frontend & Backend Development: React, React Native, Next.js, Node.js, Express.js, Tailwind CSS, Bootstrap, REST APIs, Component-Based Architecture

Tools & Cloud: Git, GitHub, Jira, VS Code, Eclipse, Figma, Canva, Docker, Firebase, Azure, Google Cloud Platform

Methodologies: Agile, Scrum, Responsive Design

PROJECTS

FITLYF – Mobile Capstone Project | Lead Frontend Developer

Sept 2025 – Apr 2026

- Developed a scalable mobile fitness application frontend using React Native and TypeScript, delivering 45+ responsive screens with reusable component architecture and mobile-first UI/UX design principles
- Implemented application architecture using React Navigation, state management patterns, and API integration workflows to support modular and maintainable development across features
- Integrated AI services including Gemini API, Passio.ai, and Nano Banana to enable personalized fitness tracking, real-time insights, and intelligent user interactions within the mobile application
- Collaborated in an Agile team using Git and GitHub for version control, branching strategies, code reviews, and feature integration across frontend and backend development

MadeEasyApp – Mobile Productivity Application | Team Lead

Sept 2025 – Dec 2025

- Led full-cycle development of a cross-platform mobile calendar and task management application using React Native, ensuring feature delivery under strict deadlines
- Designed and implemented core application architecture including navigation, task tracking, and state management using React Native best practices
- Managed project scope, team workflow, and release planning while adapting requirements to ensure successful delivery within time constraints

Boo n' Goods – Web Application | Team Lead

Sept 2025 – Dec 2025

- Led a 2-person development team in designing and building a responsive web application using React, Next.js, and Firebase for authentication, real-time database management, and backend services

- Architected modern component-based frontend interfaces, ensuring responsive design, cross-device compatibility, and optimal user experience
- Deployed production-ready application to Vercel with continuous deployment workflow, implementing performance optimization and scalable hosting

EXPERIENCE

Stampede

Calgary, AB

Food & Beverage (Server)

Jul 2023 – Aug 2023

- Operated in a high-volume, fast-paced environment, managing multiple concurrent tasks while maintaining accuracy and service efficiency
- Collaborated with cross-functional teams (kitchen and front-of-house) to ensure streamlined workflow and timely order delivery
- Resolved customer requests and issues using problem-solving and communication skills, maintaining high service quality under pressure

Stampede

Calgary, AB

Food & Beverage (Kitchen Staff)

Jul 2022 – Aug 2022

- Supported kitchen operations in a fast-paced environment, contributing to efficient workflow and consistent service delivery
- Coordinated inventory restocking and task prioritization to maintain operational efficiency during peak periods
- Followed safety, quality assurance, and standardized procedures, ensuring accuracy and compliance in food preparation processes

VOLUNTEER EXPERIENCE

Community Centre

Calgary, AB

Volunteer Cleaner

Mar 2017 – May 2020

- Maintained cleanliness and organization by following structured workflows and task checklists with strong attention to detail
- Collaborated with team members to complete tasks efficiently within deadlines, supporting a clean and safe environment
- Demonstrated reliability, accountability, and time management through long-term volunteer commitment
